

OFFICIAL (ISC)2® GUIDE TO THE CISSP®-ISSEP® CBK® - ISSEP EXAM STUDY GUIDE

ISSE DOMAIN 1: INFORMATION SYSTEMS SECURITY ENGINEERING (ISSE)

ISSE Introduction

Introduction
SE and ISSE Overview
The ISSE Model
Life Cycle and ISSE
Risk Management
Defense in Depth
Summary
References

ISSE Model Phase 1: Discover Information Protection Needs

Introduction
Systems Engineering Activity: Discover Needs
ISSE Activity: Discover Information Protection Needs
Identifying Security Services and Developing the Information Protection Policy
Creating the Information Protection Policy (IPP)
Creating the IPP Document
The Information Management Plan (IMP)
Final Deliverable of Phase 1
Summary
References

ISSE Model Phase 2: Define System Security Requirements

Introduction
System Engineering Activity: Defining System Requirements
ISSE Activity: Defining System Security Requirements
Final Deliverable of Phase 2
Summary
References

ISSE Model Phase 3: Define System Security Architecture

Introduction
Defining System and Security Architecture
System Engineering Activity: Designing System Architecture
ISSE Activity: Define the Security Architecture
Final Deliverable of Phase 3
Summary
References

BUY ONLINE FROM: <http://www.itgovernance.co.uk/products/470>

ISSE Model Phase 4: Develop Detailed Security Design

Introduction
Systems Engineering Activity: System Design
ISSE Activity: System Security Design
ISSE Design and Risk Management
Final Deliverables of Phase 4
Summary
References
Web Sites
Software Design and Development Bibliography

ISSE Model Phase 5: Implement System Security

Introduction
System Engineering Activity: System Implementation
ISSE and System Security Implementation
ISSE and Risk Management
Final Deliverable of Phase 5
Summary
References
Web Sites

ISSE Model Phase 6: Assess Security Effectiveness

Introduction
System Engineering Activity: System Assessment
ISSE and System Security Assessment
ISSE and Risk Management
Final Deliverable of Phase 6
Summary
References
Web Sites

ISSE DOMAIN 2: CERTIFICATION AND ACCREDITATION

DITSCAP and NIACAP

Introduction
DITSCAP and NIACAP Overview
DITSCAP/NIACAP Definition
Phase 1: Definition
Phase 2: Verification
Phase 3: Validation
Phase 4: Post Accreditation
Summary

BUY ONLINE FROM: <http://www.itgovernance.co.uk/products/470>

C&A NIST SP 800-37

- Introduction
- The C&A Process
- Phase 1: Initiation
- Phase 2: Security Certification
- Phase 3: Security Accreditation
- Phase 4: Continuous Monitoring
- Summary
- Domain 2 References
- Web Sites
- Acronyms

ISSE DOMAIN 3: TECHNICAL MANAGEMENT

Technical Management

- Introduction
- Planning the Effort
- Managing the Effort
- Technical Roles and Responsibilities
- Technical Documentation
- Technical Management Tools
- Summary
- References
- Web Sites

ISSEP DOMAIN 4: INTRODUCTION TO UNITED STATES GOVERNMENT INFORMATION ASSURANCE REGULATIONS

Information Assurance Organizations, Public Laws, and Public Policies

- Introduction
- Section 1: Federal Agencies and Organizations
- Section 2: Federal Laws, Executive Directives and Orders, and OMB Directives
- Summary
- References
- Web Sites

Department of Defense (DoD) Information Assurance Organizations and Policies

- Introduction
- Overview of DoD Policies
- DoD Information Assurance (IA) Organizations and Departments
- DoD Issuances
- Summary
- References
- Web Sites

BUY ONLINE FROM: <http://www.itgovernance.co.uk/products/470>

Committee on National Security Systems

Introduction
Overview of CNSS and NSTISSC
CNSS and NSTISSC Issuances
CNSS Policies
CNSS Directive
CNSS Instructions
CNSS Advisory Memoranda
Summary
References
Web Sites

National Institute of Standards and Technology (NIST) Publications

Introduction
Federal Information Processing Standards (FIPS)
NIST Special Publications
Summary
References
Web Sites

National Information Assurance Partnership (NIAP) and Common Criteria (CC)

Introduction

Historical View of IT Security Evaluations
National Information Assurance Partnership (NIAP)
The Common Criteria
CC Scenario
Summary
References
Web Sites

APPENDIX A: LINKING ISSE PHASES TO SE
Phases

APPENDIX B: ENTERPRISE ARCHITECTURE

APPENDIX C: COMBINING NIST SP 800-55 AND
SP 800-26

APPENDIX D: COMMON CRITERIA SECURITY
ASSURANCE REQUIREMENTS
